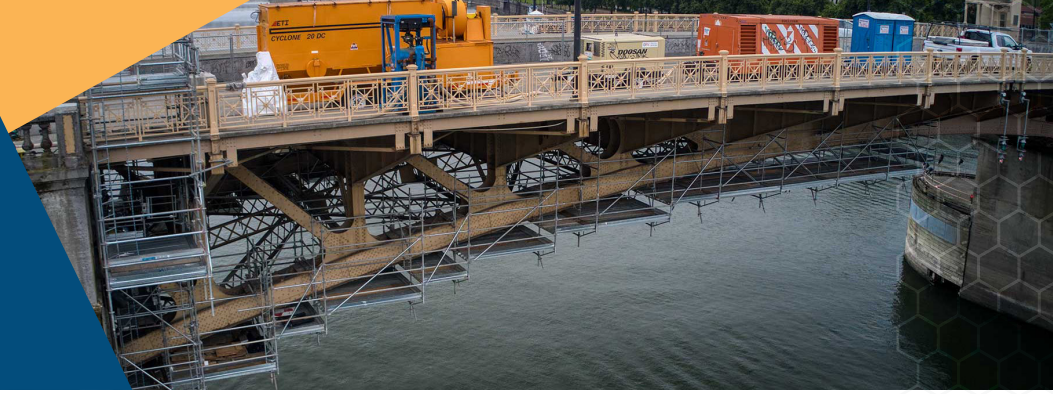
SDB CONTRACTING SERVICES

SCAFFOLDING



Comprehensive Scaffolding Solutions for Diverse Trades with SDB Contracting Services.

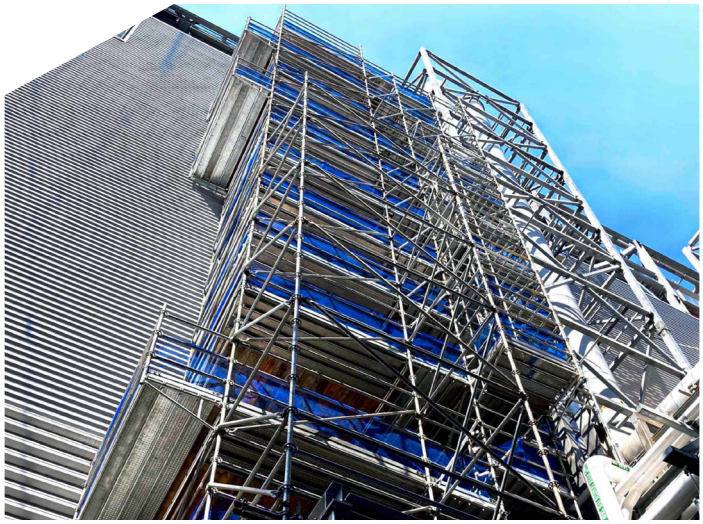
SCAFFOLDING SOLUTIONS

At SDB, our in-house Scaffolding Division delivers top tier industrial and commercial scaffolding and shoring solutions. Leveraging experience gained from numerous multi-faceted FAB constructions, data centers, mines, paper mills, power and manufacturing facilities, we've built a reputation as a trusted, responsive partner. SDB is committed to safety, precision and keeping your projects on schedule.

WHY CHOOSE SDB?

Responsive Service: We prioritize your needs, promptly answering your calls, delivering quick estimates, and honoring our commitments.

Safety and Schedule: With safety as our foremost concern and a proven ability to meet tight schedules, SDB ensures your project stays on track.



WHAT WE DO

- Suspended Scaffolding
- Ladder and Stair Towers
- System Scaffolding
- Mobile Scaffolding
- Loading Platforms
- Cleanroom Scaffolding
- Scaffolding Wrap
- Decking/Planking
- Tube and Clamp
- Trash Chutes
- Vertical Shoring
- Needle Beam Shoring
- Emergency Shoring
- Custom Leading Edge Mitigation Systems

PARTNER WITH SDB FOR SCAFFOLDING AND SHORING EXCELLENCE

When you choose SDB, you're selecting a partner dedicated to your project's success. From design to removal, we're committed to delivering exceptional scaffolding solutions that meet your safety, quality, and timeline requirements.

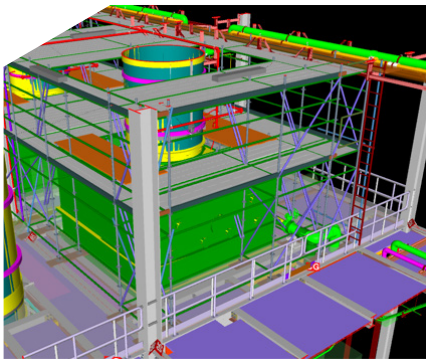
SCAFFOLDING TECHNOLOGY SOLUTIONS

BUILDING INFORMATION MODELING (BIM) IN SCAFFOLD DESIGN

BIM enhances scaffold design by providing a detailed 3D representation supporting better planning, coordination and project execution.

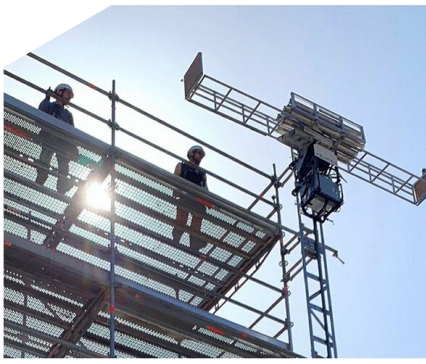
- Improves material planning, reducing waste and supporting just-in-time delivery.
- Detects spatial conflicts with permanent structures and utilities.
- Minimizes unexpected delays, change order and budget overruns.
- Better collaboration and allows integration of safety features into the design.
- SDB has a full-time BIM team to support any modeling needs.



KEWAZO LIFTBOT

A robotic material boosting system designed to automate the vertical transport of scaffolding components and other construction materials.

- Minimizes the workers needed for repetitive lifting tasks.
- Reduces the risk of injury by taking over physically demanding and injury prone tasks.
- Reduces dropped item risks keeping people and property safe.
- Consistent material movement without fatigue.
- Provides real-time operational data.
- Less manual labor, more cost-effective operations



SCAFFOLD GEO-TRACKING SOFTWARE

A centralized digital platform for managing the lifecycle of scaffolding assets across a jobsite.

- Tracks installation, modification, inspection and dismantle dates for each scaffold with associated photos and documentation.
- Provides transparent records for safety audits, scheduling and project coordination.

SAFETY CULTURE

SDB's EMR of .53 demonstrates our dedication to safety. SDB Superintendents are required to follow SDB's safety policies, which often exceed OSHA standards. SDB's safety team, comprised of 12 certified safety professionals:

- Advises supervisory personnel on safe practices
- Supplies information required to comply with company safety program and OSHA regulations
- Assures records are maintained and submitted
- As a condition of employment, SDB requires employees to comply with applicable federal, state, county, city, client and company safety regulations.
